Statement on Leadership

I have learned to articulate goals together with my team and work with them to attain the goals. I keep all members engaged, build a spirit of ownership, and focus on the goals. I inspire my team to be passionate with good team spirit. I like to delegate tasks and stay on top of all the details. I treat all my team members with respect and kindness and strive to be positive and encouraging. However, I tend to be critical when and where needed. I derive change to deliver positive results and manage risks using plan, do, check, and act cycle. I follow up on the performance of my team members, encourage continual professional development, and improve their networking skills. I foster loyalty among the team and toward the institution. I create an enabling environment to facilitate the work and I encourage lifelong learning and building capacities.
